

# CLAMPING AND BRAKING ELEMENTS

## INDIVIDUALIZATION LEVER EXTENSION

### ► SPECIFICATIONS COMPARED TO STANDARD PRODUCT

- Prevention of interference contours thanks to the extended lever
- Easy integration into existing structures
- Standard extensions in 25/50/100/150/200 mm

### ► CUSTOMIZABLE SERIES

Series HK  
Clamping element

Series HKR  
Clamping element

### ► APPLICATION DESCRIPTION

- If space is limited, the clamping lever can be mounted on the outside using an extension.
- This ensures better accessibility.
